

Hey Pamela!

Long time no speak. Between our families and work - no wonder. But, hey what can we do? I KNOW NOW. I just met the most interesting lady last Tuesday and you have to listen to this.

Her name is Rosalind and she lives in Cochrane, Alberta and she made \$657,801 last year working from her home office!

You know how we are always talking about starting up our own business? Well she told me how she did it and her way sounds awesome and much easier than what we were thinking of.

Basically, she sells other peoples products through her web site. That's it. Simple.

And for that she is making \$1,802 per day... we are obviously doing something wrong here girl! She takes lots of holidays throughout the year also just to make you more ill :o)

You know that little hobby of yours? This is the perfect place to start she said.

Do you want to use her ideas and see what we can do with this? She just wrote a special report to walk us through her proven formula to get started... and how to guarantee we do it right.

You know how we are always complaining about money? Bills. Not getting paid enough. You know us....the list goes on. But, Rosalind was proof that it is not that hard. She used to be an air traffic controller until she got sick of that and started building up her online business part time.

Now look at her ... I am extremely jealous!. We deserve her life.
The beach holidays, SHOPPING, we could have it all if we made that money!!!!

Now she spends her time helping her friends start businesses, building her own, enjoying her life....and spending all that money. Let's get out of this rut! Why don't we do this? She will help us. She told me exactly what we need to do to get started. Also, a buddy of hers will help us focus our business ideas into profit makers.

Get the kids off the computer and check out her website: www.TheSuccessFormula.com

Heck, why don't we split the cost of the guide (less than \$25 each)? Cheaper than the usual order-in pizza night! Then we can email her buddy at help@FreshIdeaCompany.com and he will help us get things going!

You got any ideas what to do with our new money? I do! We can keep complaining about it... or we can do something about it. LET'S DO IT!!

All we have to do is pick up her guide at www.TheSuccessFormula.com then email her buddy at help@FreshIdeaCompany.com and we are rocking!

Pamela, this is it! This is the break we need. Let's do this and start living the lives we always blab about.

More time for us, the family and less time working. YEAH!!!!

Go check it out and pick us up a copy... she even guarantees it for 90 days so we cannot lose!

Yahoo! Finally... a break we need and a teacher we can relate to!

To our success,

Kari

PS: If she makes \$1,802 per day from her little office in Cochrane (population of just over 11,798 people) we can too! Our ideas and your hobbies could be the ticket to getting us out of this rut. Go and check out her site at www.TheSuccessFormula.com ...pick up a copy, email her buddy for his free help... and let's get serious about our lives OK? She is a really cool lady, and her buddy will help us get going with this. She is not joking either, I even saw her tax return and she even put it on her web site to back up what she says! She really did make \$657,801 working from her home office selling whatever she wanted to sell! Awesome. LETS DO THIS!!!

CALL ME - say hi to Todd and the kids! And let's break out the wine and celebrate our new success next weekend at my place!
